

FLORENCE AVENUE SCHOOL

FEBRUARY 2017

2/2: Groundhog Day marks the midway point between the winter solstice and the vernal equinox. This day is commemorated when a famous groundhog, Punxsutawney Phil, merges from his borrow and looks at his shadow. The tradition goes that this day, is used to help determine how many weeks of winter might be left. It is observed every year of February 2nd and was established in 1887.

2/4: World Cancer Day aims to save lives by raising awareness and educating the population about cancer. The day also serves to pressure governments and individuals to take action in order to prevent, treat and control cancers. World Cancer Day was officially established on February 4, 2000 by the Paris Charter Against Cancer for the New Millennium in Paris
