

Calculate Premium Percentages

- 1 Use the Health Plan Premium Chart and enter the amount for your plan based on your coverage tier.
- 2 Use the Employee Contribution Percentage Chart and enter the percentage based on your salary and coverage tier.
- 3 Multiply premium by contribution percentage
(ex: OA 10 Single premium is \$1,033.51 per month, and your premium percentage is 10%; the calculation is $\$1,033.51 \times 10\% = \103.36)
- 4 Divide by 2 to find your per pay employee contribution
(ex: $\$103.36/2 = \51.86)
