SUPERINTENDENT'S REPORT

Dr. Neely Hackett, Superintendent of Schools began her report by congratulating Mr. Vauss on being a member of the Irvington Board of Education stating she was looking forward to working with him. She then turned her report over to the student trustees for their section of the report on Irvington High School.

Eseohe Ronald reported that the character trait for May was "Trustworthiness". She said advisory lessons included activities around trustworthiness which was defined as the quality of a person or thing that inspires reliability. May included two celebratory weeks. "Teacher Appreciation" and "Special Education" Weeks, painting a brighter future one step at a time. May 4th Comcast Cares in partnership with Meet the Need combined with over 300 volunteers who completed the following projects:

A classroom was converted to an apartment for Special Education students who will remain after 18 years to learn life skills. A court yard was converted in to a sensory garden, bathrooms were painted and once the paint dried, inspiring quotes would be decal on the stall doors. Twenty-six classroom chalkboards were converted to whiteboards, the front landscaping was revamped to include more bushes, mulch and painted posts. On that same day May 4th the Special Olympics were held and Fat Boy spoke with the students about the importance of staying in school and getting their education. The Middle States Association Visiting Team was welcomed on Tuesday, May 7th with music, food and drink for a Meet & Greet. Teachers were celebrated at that time with words of encouragement and a celebratory cake.

The Visiting Team ended their reaccreditation visit on Friday, May 10th with their final oral report indicating that Irvington High passed the 12 standards and received other commendations however the report included some recommendations that would be addressed. Overall the visiting team recommended a seven-year accreditation.

Aisha Shabbir reported that the May IHS PTSA meeting held on May 6th was conducted in English supported by Hispanic and Haitian Creole interpreters. June's meeting would be held on June 10th due to the snow day give back. The Middle States Report would be presented at that meeting. Marking period 4 Progress Reports would be distributed Friday, May 17th. Student grades and attendance was always available on the Power School Portal. State Testing had begun for NJSLA ELA and Math subjects. NJSLA Science would begin on May 20th. College Boards AP Exams would continue through May 16th. May 27th was the Township Memorial Day Program and Parade. May 29th the School Leadership Council in coordination with staff hosted the Student Empowerment Conference. May 30th the Visual and Performing Arts Department hosted their day and evening program. May 31st 9:00 am was the Senior Awards Assembly where many seniors were recognized and many scholarships were awarded. Ms. Shabbir ended by acknowledging the accomplishments of the individuals who stood out in Spring Track and Tennis.

Dr. Hackett continued her report with acknowledging all those in attendance from Irvington High School stating they all worked hard the past year to get ready for accreditation and after a week of review and monitoring they found out they received accreditation for seven years. She also thanked the student trustees for their report.

Dr. Hackett acknowledged University Elementary and Ms. Boone-Gibbs saying "What a performance"! The students were given another round of applause.

Dr. Hackett went further with her report giving recognition to students. She explained the Board Members wanted to do something special because these were students who were not always recognized. She said these students made great improvements showing that hard work really pays off: The students were called individually as their information was shared by a board member or member of the administration as noted under their brief bio.

CLASSIFICATION DEFINITIONS

1. "Auditorily Impaired" corresponds to "auditorily handicapped" and further corresponds to the Federal eligibility categories of deafness or hearing impairment. "Auditorily impaired" means an inability to hear within normal limits due to physical impairment or dysfunction of auditory mechanisms characterized by (c)1i or ii below. An audiological evaluation by a specialist qualified in the field of audiology and a speech and language evaluation by a certified speech- language specialist are required.

i. "Deafness"--The auditory impairment is so severe that the student is impaired in processing linguistic information through hearing, with or without amplification and the student's educational performance is adversely affected.

ii. "Hearing Impairment"--An impairment in hearing, whether permanent or fluctuating which adversely affects the student's educational performance.

2. "Autistic" means a pervasive developmental disability which significantly impacts verbal and nonverbal communication and social interaction that adversely affects a student's educational performance. Onset is generally evident before age three. Other characteristics often associated with autism are engagement in repetitive activities and stereotyped movements, resistance to environmental change or change in daily routine, unusual responses to sensory experiences and lack of responsiveness to others. The term does not apply if the student's adverse educational performance is due to emotional disturbance as defined in (c) 5 below. A child who manifests the characteristics of autism after age three may be classified as autistic if the criteria in this paragraph are met. An assessment by a certified speech-language specialist and an assessment by a physician trained in neurodevelopmental assessment are required.

3. "Intellectually Disabled" means a disability that is characterized by significantly below average general cognitive functioning existing concurrently with deficits in adaptive behavior; manifested during the developmental period that adversely affects a student's educational performance and is characterized by one of the following:

i. "Mild Intellectual Disability" means a level of cognitive development and adaptive behavior in home, school, and community settings that are mildly below age expectations with respect to all of the following:

- (1) The quality and rate of learning;
- (2) The use of symbols for the interpretation of information and the solution of problems; and
- (3) Performance on an individually administered test of intelligence that falls within a range of two to three standard deviations below the mean.

ii. "Moderate Intellectual Disability" means a level of cognitive development and adaptive behavior that is moderately below age expectations with respect to the following:

- (1) The ability to use symbols in the solution of problems of low complexity;
- (2) The ability to function socially without direct and close supervision in home, school and community settings; and
- (3) Performance on an individually administered test of intelligence that falls three standard deviations or more below the mean.

iii. "Severe Intellectual Disability" means a level of functioning severely below age expectations whereby in a consistent basis the student is incapable of giving evidence of understanding and responding in a positive manner to simple directions expressed in the child's primary mode of communication and cannot in some manner express basic wants and needs.

4. "Communication Impaired" corresponds to "communication handicapped" and means a language disorder in the areas of morphology, syntax, semantics and/or pragmatics/discourse which adversely affects a student's educational performance and is not due primarily to an auditory impairment. The problem shall be demonstrated through functional assessment of language in other than a testing situation and performance below 1.5 standard deviations, or the 10th percentile on at least two standardized language tests, where such tests are appropriate, one of which shall be a comprehensive test of both receptive and expressive language. When the area of suspected disability is language, assessment by a certified speech-language specialist and assessment to establish the educational impact are required. The speech-language specialist shall be considered a child study team member.

i. When it is determined that the student meets the eligibility criteria according to the definition in (c) 4 above, but requires instruction by a speech-language specialist only, the student shall be classified as eligible for speech-language services.

ii. When the area of suspected disability is a disorder of articulation, voice or fluency, the student shall be evaluated according to N.J.A.C. 6A:14-3.4(g) and, if eligible, classified as eligible for speech-language services according to N.J.A.C. 6A:14-3.6(a).

5. "Emotionally Disturbed" means a condition exhibiting one or more of the following characteristics over a long period of time and to a marked degree that adversely affects a student's educational performance due to:

- i. An inability to learn that cannot be explained by intellectual, sensory or health factors;
- ii. An inability to build or maintain satisfactory interpersonal relationships with peers and teachers;
- iii. Inappropriate types of behaviors or feelings under normal circumstances;
- iv. A general pervasive mood of unhappiness or depression; or
- v. A tendency to develop physical symptoms or fears associated with personal or school problems.

6. "Multiply Disabled" corresponds to "multiply handicapped" and "multiple disabilities," and means the presence of two or more disabling conditions, the combination of which causes such severe educational needs that they cannot be accommodated in a program designed solely to address one of the impairments. Multiple disabilities includes cognitively impaired-blindness, cognitively impaired-orthopedic impairment, etc. The existence of two disabling conditions alone shall not serve as a basis for a classification of multiply disabled. Eligibility for speech-language services as defined in this section shall not be one of the disabling conditions for classification based on the definition of "multiply disabled." Multiply disabled does not include deaf-blindness.

7. "Deaf/blindness" means concomitant hearing and visual impairments, the combination of which causes such severe communication and other developmental and educational problems that they cannot be accommodated in special education programs solely for students with deafness or students with blindness.

8. "Orthopedically Impaired" corresponds to "orthopedically handicapped" and means a disability characterized by a severe orthopedic impairment that adversely affects a student's educational performance. The term includes malformation, malfunction or loss of bones, muscle or tissue. A medical assessment documenting the orthopedic condition is required.

9. "Other Health Impaired" corresponds to "chronically ill" and means a disability characterized by having limited strength, vitality or alertness, including a heightened alertness with respect to the educational environment, due to chronic or acute health problems, such as attention deficit disorder or attention deficit hyperactivity disorder, a heart condition, tuberculosis, rheumatic fever, nephritis, asthma, sickle cell anemia, hemophilia, epilepsy, lead poisoning, leukemia, diabetes or any other medical condition, such as Tourette Syndrome, that adversely affects a student's educational performance. A medical assessment documenting the health problem is required.

10. "Preschool Child with a Disability" corresponds to preschool handicapped and means a child between the ages of three and five who either:

i. Is experiencing developmental delay, as measured by appropriate diagnostic instruments and procedures, in one or more of the areas in (c) 10 i (1) through (5) below, and requires special education and related services. When utilizing a standardized assessment or criterion-referenced measure to determine eligibility, a developmental delay shall mean a 33 percent delay in one developmental area, or a 25 percent delay in two or more developmental areas.

- (1) Physical, including gross motor, fine motor and sensory (vision and hearing);
- (2) Intellectual;
- (3) Communication;
- (4) Social and emotional; and
- (5) Adaptive; or

ii. Has an identified disabling condition, including vision or hearing, that adversely affects learning or development and who requires special education and related services.

11. "Social Maladjustment" means a consistent inability to conform to the standards for behavior established by the school. Such behavior is seriously disruptive to the education of the student or other students and is not due to emotional disturbance as defined in (c) 5 above.

12. "Specific Learning Disability" corresponds to "perceptually impaired" and means a disorder in one or more of the basic psychological processes involved in understanding or using language, spoken or written, that may manifest itself in an imperfect ability to listen, think, speak, read, write, spell, or to do mathematical calculations, including conditions such as perceptual disabilities, brain injury, minimal brain dysfunction, dyslexia, and developmental aphasia.

i. A specific learning disability can be determined when a severe discrepancy is found between the student's current achievement and intellectual ability in one or more of the following areas:

- (1) Basic reading skills;
- (2) Reading comprehension;
- (3) Oral expression;
- (4) Listening comprehension;
- (5) Mathematical calculation;
- (6) Mathematical problem solving;
- (7) Written expression; and
- (8) Reading fluency.

ii. A specific learning disability may also be determined by utilizing a response to scientifically based interventions methodology as described in N.J.A.C. 6A:14-3.4(h)6.

iii. The term severe discrepancy does not apply to students who have learning problems that are primarily the result of visual, hearing, or motor disabilities, general cognitive deficits, emotional disturbance or environmental, cultural or economic disadvantage.

iv. The district shall, if it utilizes the severe discrepancy methodology, adopt procedures that utilize a statistical formula and criteria for determining severe discrepancy. Evaluation shall include assessment of current academic achievement and intellectual ability.

13. "Traumatic Brain Injury" corresponds to "neurologically impaired" and means an acquired injury to the brain caused by an external physical force or insult to the brain, resulting in total or partial functional disability or psychosocial impairment, or both. The term applies to open or closed head injuries resulting in impairments in one or more areas, such as cognition; language; memory; attention; reasoning; abstract thinking; judgment; problem-solving; sensory, perceptual and motor abilities; psychosocial behavior; physical functions; information processing; and speech.

14. "Visually Impaired" corresponds to "visually handicapped" and means an impairment in vision that, even with correction, adversely affects a student's educational performance. The term includes both partial sight and blindness. An assessment by a specialist qualified to determine visual disability is required. Students with visual impairments shall be reported to the Commission for the Blind and Visually Impaired.

192. FOR THE RECORD

Item 63, page 55, Board approved 3/20/19, entitled “FIELD TRIPS: Cosmetology Theory Written Exam” should be amended from account number 20-CP9-100-600-00-19 to 20-CP9-100-300-00-19.

PUBLIC COMMENT:

Michael Byock, IEA President, addressed the Board noting some of the things the Union did. First for the Special Olympics run by Special Services, the union supplied shirts for all the staff and students. Second, for the Parent Academy the Union would be giving mugs to all the parents that would attend and they invited the Optical Academy to come so the parents and staff would be aware of where to get affordable eye wear and eye examines. Field Days were coming up so he reminded them that Augusta Pre School and Thurgood won T-Shirts for all of their students to wear. It was the second year the IEA did that. Finally, IEA Pride added a last minute event. The IEA would be paying for a summer tournament for the basketball team. They would not only have the registration fee paid, but would receive \$500.00 to ensure the students were feed each day.

CLOSED SESSION

“In accordance with the New Jersey Open Public Meeting Act, be it hereby resolved that the Irvington Township Board of Education meet in closed session, June 12, 2019 at 5:30 p.m., at Union Avenue Middle School, 427 Union Avenue, Irvington, New Jersey, to address confidential matters of personnel, negotiations, and/or attorney client privilege.

It is expected that the matters discussed will be made public at the time that the need for confidentiality no longer exists.”

Upon the motion to adjourn called on by Board President Orlander Vick the Board Members unanimously approved the motion on a voice vote at 8:34 pm
