Several other administrators, interested citizens and newspaper reporters

Board President Audrey Lyon-Griffin reported that in accordance with P.L. 1975, Chapter 231, adequate notice of this meeting was posted in the Administration Building and copies of said notice sent to the Irvington Herald, the Star Ledger, and Township Clerk.

SUPERINTENDENT'S REPORT

Dr. April Vauss, Superintendent of Schools began her report by mentioning that the meeting would have been held at Irvington High School if the meeting was in person but the Principal, was on hand to highlight some important items for the high school. She then asked for and received a moment of silence for those victims of the Earthquake and now hurricanes affecting Haiti. She said normally Mr. Denis would be appointing the new student trustees for the 2021-2022 school year, if it he didn't have it in his report, they would be ready for the September Board Meeting

Mr. Oge Denis, Principal of Irvington High School, welcomed all expressing that he was elated learning would be in person this year. He stated his presentation would cover where they were, where they are and where they were going. He started by presenting a chart on the Chronic Absenteeism Rates, Out of School Suspensions, Actions Taken to Address Chronic Absences. Mr. Denis then displayed the 2021 Accolades for the high school and the existing College Partnerships (Pillar College, Syracuse University and Essex County College). He also stated they had a plan for Social Emotional Learning and presented how the assistance there for the students would be implemented.

Mr. Denis went on to say the plan was to have S.T.E.A.M. Program for the 2022-2023 school year and went on to address the value of the program for the high school. He then displayed the school uniform which consisted of a white polo shirt, navy blue pants and a royal blue sweater. He stated the sweaters were to eliminate hoodies in the building. This led into the "Safety Precautions" that were put in place for the school year. Mr. Denis ended his presentation by thanking Dr. Vauss and the Board for their continued support.

Dr. Vauss continued her report thanking Mr. Denis and his team. She stated she was excited about the new direction of the high school and the team that Mr. Denis had assembled. She mentioned the brain tank meeting as they looked to go through all of their ideas as to the S.T.E.A.M. Program, which would be followed up by a walk through with Mr. Monel and his team as they looked to transform the west wing into the new type of academy. Dr. Vauss explained the student would be chosen by a panel of educators from all different departments in the school district. She said details will follow and the ultimate goal is to keep the Irvington Students in Irvington where there would be a high-quality education from the committed and dedicated staff there. She was sure everyone shared in the desire to continue to build the community one student at a time.

Moving on Dr. Vauss reiterated as Mr. Denis mentioned Irvington High School was nationally recognized for earning the National Federation of State High School Associations Level 1 Status "School Honor Roll Program" for the second year in a row. She believed Irvington High was the only school to receive that distinction two years in a row. Dr. Vauss went on to say there were no vacancies at the high school. She stressed how big an accomplishment that was. She said she wanted to believe it was the climate of the high school and the pitch of the team that brought in teachers who wanted to teach at Irvington High. She added the district had phenomenal students who deserve to come into a classroom day one with a committed and certified teacher. And just so everyone understood the National Recognition received, that meant that 100% of the coaches were Nationally Certified. That means the coaches could go anywhere to coach because they are Nationally Certified, so the district was tremendously proud.

Also, in the area of athletics, two of the top wide receivers in the State of New Jersey were in Irvington, Famah Turay and Nasir Addison. Another area of pride was one of the district's athletes being offered a full ride to Notre Dame University in Indiana. He has a commitment as a 4 star safety, he is a top 247 prospect nationally, Adon Shuler who would be a junior next year. This means this young man has completed his sophomore year and is already offered a complete scholarship to one of the top schools for football as well as academics. Finally, staff member Coach Ashley "Smoke" Pierre would be honored at MetLife Stadium August 27, 2021 as one of the New Jersey Coaches of the Week.

Academically the district just successfully completed the summer program. Based on the number of participants Dr. Vauss felt the parents were starting to have more confidence in allowing their children in the building. So, Dr. Vauss was excited about the school year, she was excited about beginning full day instruction. She stated she would be sending out instruction on how the school would look. She acknowledged that Gov. Murphy has been sending information daily, weekly on what they would need to do, but know that the district was finishing the plans for regular instruction, a hybrid model and possibly virtual instruction. That was the directive given by the State and the district must follow that. It was her goal to get everyone in the classroom. Though the district has had some cases, she felt they have done tremendously well, they have followed the protocols, and as long as they follow the protocols she believes everyone could be safe. Board President Lyon-Griffin thanked Dr. Vauss and Mr. Denis for their vision for the district and stated she

and her Board colleagues were extremely proud to see the vision coming to fruition. She said they were excited about what was going on and looked forward to getting back into the classroom.

CLASSIFICATION DEFINITIONS

1. "Auditorily Impaired" corresponds to "auditorily handicapped" and further corresponds to the Federal eligibility categories of deafness or hearing impairment. "Auditorily impaired" means an inability to hear within normal limits due to physical impairment or dysfunction of auditory mechanisms characterized by (c)1i or ii below. An audiological evaluation by a specialist qualified in the field of audiology and a speech and language evaluation by a certified speech- language specialist is required.

i. "Deafness"--The auditory impairment is so severe that the student is impaired in processing linguistic information through hearing, with or without amplification and the student's educational performance is adversely affected.

ii. "Hearing Impairment"--An impairment in hearing, whether permanent or fluctuating which adversely affects the student's educational performance.

2. "Autistic" means a pervasive developmental disability which significantly impacts verbal and nonverbal communication and social interaction that adversely affects a student's educational performance. Onset is generally evident before age three. Other characteristics often associated with autism are engagement in repetitive activities and stereotyped movements, resistance to environmental change or change in daily routine, unusual responses to sensory experiences and lack of responsiveness to others. The term does not apply if the student's adverse educational performance is due to emotional disturbance as defined in (c) 5 below. A child who manifests the characteristics of autism after age three may be classified as autistic if the criteria in this paragraph are met. An assessment by a certified speech-language specialist and an assessment by a physician trained in neurodevelopmental assessment are required.

3. "Intellectually Disabled" means a disability that is characterized by significantly below average general cognitive functioning existing concurrently with deficits in adaptive behavior; manifested during the developmental period that adversely affects a student's educational performance and is characterized by one of the following:

i. "Mild Intellectual Disability" means a level of cognitive development and adaptive behavior in home, school, and community settings that are mildly below age expectations with respect to all of the following:

- (1) The quality and rate of learning;
- (2) The use of symbols for the interpretation of information and the solution of problems; and
- (3) Performance on an individually administered test of intelligence that falls within a range of two to three standard deviations below the mean.

ii. "Moderate Intellectual Disability" means a level of cognitive development and adaptive behavior that is moderately below age expectations with respect to the following:

- (1) The ability to use symbols in the solution of problems of low complexity;
- (2) The ability to function socially without direct and close supervision in home, school and community settings; and
- (3) Performance on an individually administered test of intelligence that falls three standard deviations or more below the mean.

iii. "Severe Intellectual Disability" means a level of functioning severely below age expectations whereby in a consistent basis the student is incapable of giving evidence of understanding and responding in a positive manner to simple directions expressed in the child's primary mode of communication and cannot in some manner express basic wants and needs.

4. "Communication Impaired" corresponds to "communication handicapped" and means a language disorder in the areas of morphology, syntax, semantics and/or pragmatics/discourse which adversely affects a student's educational performance and is not due primarily to an auditory impairment. The problem shall be demonstrated through functional assessment of language in other than a testing situation and performance below 1.5 standard deviations, or the 10th percentile on at least two standardized language tests, where such tests are appropriate, one of which shall be a comprehensive test of both receptive and expressive language. When the area of suspected disability is language, assessment by a certified speech-language specialist and assessment to establish the educational impact are required. The speech-language specialist shall be considered a child study team member.

i. When it is determined that the student meets the eligibility criteria according to the definition in (c) 4 above, but requires instruction by a speech-language specialist only, the student shall be classified as eligible for speech-language services.

ii. When the area of suspected disability is a disorder of articulation, voice or fluency, the student shall be evaluated according to N.J.A.C. 6A:14-3.4(g) and, if eligible, classified as eligible for speech-language services according to N.J.A.C. 6A:14-3.6(a).

5. "Emotionally Disturbed" means a condition exhibiting one or more of the following characteristics over a long period of time and to a marked degree that adversely affects a student's educational performance due to:

- i. An inability to learn that cannot be explained by intellectual, sensory or health factors;
- ii. An inability to build or maintain satisfactory interpersonal relationships with peers and teachers;
- iii. Inappropriate types of behaviors or feelings under normal circumstances;
- iv. A general pervasive mood of unhappiness or depression; or
- v. A tendency to develop physical symptoms or fears associated with personal or school problems.

6. "Multiply Disabled" corresponds to "multiply handicapped" and "multiple disabilities," and means the presence of two or more disabling conditions, the combination of which causes such severe educational needs that they cannot be accommodated in a program designed solely to address one of the impairments. Multiple

disabilities include cognitively impaired-blindness, cognitively impaired-orthopedic impairment, etc. The existence of two disabling conditions alone shall not serve as a basis for a classification of multiply disabled. Eligibility for speech-language services as defined in this section shall not be one of the disabling conditions for classification based on the definition of "multiply disabled." Multiply disabled does not include deaf-blindness.

7. "Deaf/blindness" means concomitant hearing and visual impairments, the combination of which causes such severe communication and other developmental and educational problems that they cannot be accommodated in special education programs solely for students with deafness or students with blindness.

8. "Orthopedically Impaired" corresponds to "orthopedically handicapped" and means a disability characterized by a severe orthopedic impairment that adversely affects a student's educational performance. The term includes malformation, malfunction or loss of bones, muscle or tissue. A medical assessment documenting the orthopedic condition is required.

9. "Other Health Impaired" corresponds to "chronically ill" and means a disability characterized by having limited strength, vitality or alertness, including a heightened alertness with respect to the educational environment, due to chronic or acute health problems, such as attention deficit disorder or attention deficit hyperactivity disorder, a heart condition, tuberculosis, rheumatic fever, nephritis, asthma, sickle cell anemia, hemophilia, epilepsy, lead poisoning, leukemia, diabetes or any other medical condition, such as Tourette Syndrome, that adversely affects a student's educational performance. A medical assessment documenting the health problem is required.

10. "Preschool Child with a Disability" corresponds to preschool handicapped and means a child between the ages of three and five who either:

i. Is experiencing developmental delay, as measured by appropriate diagnostic instruments and procedures, in one or more of the areas in (c) 10 i (1) through (5) below, and requires special education and related services. When utilizing a standardized assessment or criterion-referenced measure to determine eligibility, a developmental delay shall mean a 33 percent delay in one developmental area, or a 25 percent delay in two or more developmental areas.

- (1) Physical, including gross motor, fine motor and sensory (vision and hearing);
- (2) Intellectual;
- (3) Communication;
- (4) Social and emotional; and
- (5) Adaptive; or

ii. Has an identified disabling condition, including vision or hearing, that adversely affects learning or development and who requires special education and related services.

11. "Social Maladjustment" means a consistent inability to conform to the standards for behavior established by the school. Such behavior is seriously disruptive to the education of the student or other students and is not due to emotional disturbance as defined in (c) 5 above.

12. "Specific Learning Disability" corresponds to "perceptually impaired" and means a disorder in one or more of the basic psychological processes involved in understanding or using language, spoken or written, that may manifest itself in an imperfect ability to listen, think, speak, read, write, spell, or to do mathematical calculations, including conditions such as perceptual disabilities, brain injury, minimal brain dysfunction, dyslexia, and developmental aphasia.

i. A specific learning disability can be determined when a severe discrepancy is found between the student's current achievement and intellectual ability in one or more of the following areas:

- (1) Basic reading skills;
- (2) Reading comprehension;
- (3) Oral expression;
- (4) Listening comprehension;
- (5) Mathematical calculation;
- (6) Mathematical problem solving;
- (7) Written expression; and
- (8) Reading fluency.

ii. A specific learning disability may also be determined by utilizing a response to scientifically based interventions methodology as described in N.J.A.C. 6A:14-3.4(h)6.

iii. The term severe discrepancy does not apply to students who have learning problems that are primarily the result of visual, hearing, or motor disabilities, general cognitive deficits, emotional disturbance or environmental, cultural or economic disadvantage.

iv. The district shall, if it utilizes the severe discrepancy methodology, adopt procedures that utilize a statistical formula and criteria for determining severe discrepancy. Evaluation shall include assessment of current academic achievement and intellectual ability.

13. "Traumatic Brain Injury" corresponds to "neurologically impaired" and means an acquired injury to the brain caused by an external physical force or insult to the brain, resulting in total or partial functional disability or psychosocial impairment, or both. The term applies to open or closed head injuries resulting in impairments in one or more areas, such as cognition; language; memory; attention; reasoning; abstract thinking; judgment; problem-solving; sensory, perceptual and motor abilities; psychosocial behavior; physical functions; information processing; and speech.

14. "Visually Impaired" corresponds to "visually handicapped" and means an impairment in vision that, even with correction, adversely affects a student's educational performance. The term includes both partial sight and blindness. An assessment by a specialist qualified to determine visual disability is required. Students with visual impairments shall be reported to the Commission for the Blind and Visually Impaired.

46. APPROVAL TO ESTABLISH A MENTORING / PROFESSIONAL DEVELOPMENT PROGRAM FOR TEACHERS THAT COMPLETED THE MONTCLAIR UNIVERSITY ESL AND BILINGUAL PROGRAMS - DEPARTMENT OF ESL / BILINGUAL AND WORLD LANGUAGES

RESOLVED, that the Board of Education accepted the recommendation of the Superintendent of Schools and granted permission to approve the development of a professional development program to continue developing the bilingual and ESL skills of teachers who completed the Montclair University Program during the 2021-2022 school year.

The following are some of the activities that this group of teachers will be engaged in during the upcoming school year:

Listed below are the recommendations we propose from the last class:

Building a community multilingual resources website to support English Learners (ELs) and their families. The site will also be welcoming and demonstrating that we promote bilingualism

Supporting The General Education Teacher with strategies for reading, and math. Provide resources for regular classroom teachers to promote multilingual by developing multilingual word walls. Allow teachers to record videos that can be used as exemplars to promote using students first language to understand concepts in English.

Building on the strength of our ELs by Improving the quality of books in Libraries to include multicultural books. Students are more engaged with books that they can relate to; culturally responsive books.

In addition, the project would hire a consultant to help direct to work of the teachers. This coach would build a relationship with Montclair University in addition to support the Department of Bilingual and ESL programs initiatives.

The cost of the program would be the following:

- Consultant – a flat fee of \$3,000.00 for the 2021-2022 school year.
- Teachers will receive professional development hours for the time spent in developing all resources and teacher support.

Total amount not to exceed \$3,000.00 payable from account number 20-20-TT2-200-300-00-30.

47. APPROVAL TO CREATE A LEADERSHIP MENTORING PROGRAM FOR HIGH SCHOOL STUDENTS - DEPARTMENT OF ESL / BILINGUAL AND WORLD LANGUAGES

RESOLVED, that the Board of Education accepted the recommendation of the Superintendent of Schools and granted permission to approve the creation of a mentoring program for high school English Learner (EL) students.

The mentoring teachers will select students based on an established set of criteria that demonstrates leadership, integrity, commitment to academics, etc. (Grades, attendance, class participation, teacher recommendation, etc.) to engage in experiences that foster leadership skills while also serving as mentors for newcomer students.

These mentor students will serve as a support system and resource for newcomer EL students to help them:

- Acclimate to a new school environment (location of classes, introduction to students, etc.)
- Guide them through the process of managing academics
- Provide peer support for various subjects where needed
- Encourage participation in extra-curricular activities
- Collaborate with stakeholders to determine further areas of support as needed

The teachers will meet with the mentor students for a total of 40 hours over the course of the school year to establish goals, monitor progress, and collaborate to determine how to best offer continued support to the newcomer EL students. Teachers will be responsible for working with mentor students to develop leadership traits and characteristics, including:

- Cultivate leadership skills in students that will help them to do the following:
 - o Act in a manner that is ethical & equitable
 - o Plan and implementing of events
 - o Develop skills to effectively lead meetings
 - o Engage in service-learning projects
 - o Describe the structure and process of an organization
 - o Utilize various mediums to collaborate with others and achieve desired goals
 - o Effectively communicate with others through verbally, digitally, and in print in various settings (large group, small group, etc.)
 - o Identify, understand, and utilize various forms of problem solving and conflict resolution strategies appropriate for diverse group settings

Teachers will further support mentor students in acquiring leadership characteristics through the following:

- Reach out to leaders in various fields (i.e. business, politics, etc.) to meet with students and discuss their roles & responsibilities as community leaders
- Help to develop a climate of support and acceptance for students of all backgrounds
- Engage students in activities that will help them:
 - o Identify various leadership styles and evaluate the strength/weakness of the various tenants of each style
 - o Learn to be adaptable to meet specific challenges and work with diverse groups

- Learn to be reflective in a manner that allows them to assess the success/failure of actions and develop a plan to address areas where improvement is needed
- Identify needs within the community and develop solutions to address needs

The program will consist of the following: Four (4) High School Mentor & Leadership Program Teachers (2 Spanish, 2 Haitian Creole speakers preferred),

Teachers will be paid \$40.00 per hour for 40 hours each (\$40.00 x 40 hrs x 4 teachers = \$6,400.00)
