Board Vice President Annette Beasley reported that in accordance with P.L. 1975, Chapter 231, adequate notice of this meeting was posted in the Administration Building and copies of said notice sent to the Irvington Herald, the Star Ledger, and Township Clerk.

SUPERINTENDENT’S REPORT

Dr. April Vauss, Superintendent of Schools welcomed everyone and began her report by introducing Dr. Chinaire Simons, Principal of University Elementary School.

Dr. Simons noted she was the proud principal of University Elementary School “Home of the Hawks” and quite excited to host the evenings Board of Education Meeting. She stated if all had not already heard, UES was “Back to Business”. The scholars were attending in person instruction on a daily rate of 90% and higher. She noted in addition to striving and thriving academically, the scholars have had the opportunity to participate in a walk during Read Across America Week, visit a fire truck during College & Career Week and would be participating in an in-person field day and moving up ceremony for Pre-K 4, Kindergarten and Grade 5. Dr. Simons thanked the full board and the administration for their full support in the advancement of the scholars. She said with their support the students were able to utilize before and afterschool academic programs as well as athletic sports. She also thanked the parents and the phenomenal staff at UES for their continued commitment

to the scholars. She introduced a video presentation that illustrated how with the various partnerships UES was “Building the Community One Student at a Time”.

Dr. Vauss went on to commend Dr. Simons and her incredible UES staff noting UES was one of her home schools as a teacher. She indicated the UES was in very capable hands that Dr. Simons was an exemplary principal. Dr. Vauss also acknowledged that she has gotten several ideas from Dr. Simons which she was putting into practice for example if the Board approved the calendar, there would be a Social Emotional Learning Day throughout the district. She congratulated Dr. Simons, her staff, scholars and parents for working collaboratively together.

Angel Odugbile, Student Trustee reported that she would be sharing some of the wonderful accomplishments of the scholars at Irvington High School. She said they call this part of the Superintendent’s Report their good news segment and hope all would sharing in congratulating the outstanding scholars. Senior Scholar Athlete Zaheem Crawford-Peterson was an honoree and named to the NFF Team of Distinction. Zaheem received a certificate and has his photo, name and Irvington High School on national display in the College Football Hall of Fame. The Golf Team was featured in an article on the NJSIAA website. Irvington’s Girls team has officially won the SEC Colonial Division Championship after completing their conference schedule with a 5-2 record. The team ended 6-2 overall. The girls Lacrosse team had their first win in school history with a score of 5-3. During Teacher’s Appreciation Week, students wrote beautiful gratification statements to educators of Irvington High. The touching testimonies were really appreciated by the Teachers. Irvington High School JROTC Senior Antof Monu was awarded the prestigious AUSA 1st Region General Collar Hand Scholarship for 2022. He embodied everything positive about JROTC and a quick span of his bio showed the diversity of his accomplishments that remains a true testament of what makes JROTC so strong. Congratulations to Cadet Munu for representing Irvington High School with academic scholarship honors. April said they looked forward to sharing more in the future about all the positive things happening around the school despite the difficulties around the world. She ended by noting, in their pursue for excellence they “Continued to Build the Community, One Student at a Time”.

Dr. Vauss getting back to her report spoke to the district’s charge to be inclusive and to demonstrate through practices that there was a very diverse population in the community. Not only was it representative of the scholars and teaching staff, but of the staff, the security staff, secretaries, custodial staff, etc all help the district do what it does. Dr. Vauss stated they never want to lose sight of that. In the upcoming month in her presentation she was going to not only present Teacher of the Year but those staff members who help keep the district’s buildings running.

Dr. Vauss went on to announce that on May 13, 2022 the district held its Military Ball under the leadership of Maj. Monroe and Sgt. Craig. The evening was quite successful and in keeping with the district’s JROTC requirements. She again congratulated the Golf Program being in their second year they won the SEC Conference Championship and would be competing in the State Championship. She congratulated Dr. Taylor the Golf Team and the coaches.

She reminded the community there would be no school on May 31st. As a result of not having used all of the snow days the schools would be closed May 31, 2022. She was also looking forward to June 4, 2022 which would be the Special Olympics which would be in person. This would be a collaboration with the IEA and the Special Services Department at Irvington High School. On Saturday, June 18, 2022 the district would be hosting its first ever Wellness Day. There would be lots of healthy activities, healthy food vendors, mindfulness activities to help all become a total healthy person and continue to strive for our overall wellness. She encouraged the community to come out to Irvington High and Orange for this inaugural year activity.

VIRTUAL BOARD MEETING

MAY 18, 2022

Dr. Vauss said the district is receiving and asking for applicants for the Rita L. Owens Steam Academy. Applications were due May 23rd and it was noted there was a limited number of enrollees for the inaugural year. Interviews would be conducted at the middle schools so if there were questions folks were urged to see their middle school principal. Applications were mailed if the parent had a child in the 8th grade in the district but they could retrieve applications on the website as well as from their child's school.

Finally, Dr. Vauss stressed that while the district continues to move forward from the pandemic, the pandemic is not over. She asked that all stakeholders in the district continue to wear their masks and to wear them covering their nose and mouths which was the proper way to wear the masks. She said they have found themselves not having to close classrooms, not close schools and most importantly not close the district. She said while virtual instruction has been beneficial to not having any schools, it was not the preferred method of education. Research has shown having live instruction, the teacher in front, small classroom setting is the best way for the scholars to learn. For this to take place the district needs everyone to fully commit to wearing their mask every day, all times. All members of the Irvington Community must wear their masks over their nose and over their mouths. She stressed once again that Covid was not gone, it was resurging so if they wanted schools to remain open, she pleaded with all to wear their masks.

CLASSIFICATION DEFINITIONS

1. "Auditorily Impaired" corresponds to "auditorily handicapped" and further corresponds to the Federal eligibility categories of deafness or hearing impairment. "Auditorily impaired" means an inability to hear within normal limits due to physical impairment or dysfunction of auditory mechanisms characterized by (c)1i or ii below. An audiological evaluation by a specialist qualified in the field of audiology and a speech and language evaluation by a certified speech- language specialist are required:

i. "Deafness"--The auditory impairment is so severe that the student is impaired in processing linguistic information through hearing, with or without amplification and the student's educational performance is adversely affected.

ii. "Hearing Impairment"--An impairment in hearing, whether permanent or fluctuating which adversely affects the student's educational performance.

2. "Autistic" means a pervasive developmental disability which significantly impacts verbal and nonverbal communication and social interaction that adversely affects a student's educational performance. Onset is generally evident before age three. Other characteristics often associated with autism are engagement in repetitive activities and stereotyped movements, resistance to environmental change or change in daily routine, unusual responses to sensory experiences and lack of responsiveness to others. The term does not apply if the student's adverse educational performance is due to emotional disturbance as defined in (c) 5 below. A child who manifests the characteristics of autism after age three may be classified as autistic if the criteria in this paragraph are met. An assessment by a certified speech-language specialist and an assessment by a physician trained in neurodevelopmental assessment are required.

3. "Intellectually Disabled" means a disability that is characterized by significantly below average general cognitive functioning existing concurrently with deficits in adaptive behavior; manifested during the developmental period that adversely affects a student's educational performance and is characterized by one of the following:

i. "Mild Intellectual Disability" means a level of cognitive development and adaptive behavior in home, school, and community settings that are mildly below age expectations with respect to all of the following:

- (1) The quality and rate of learning;
- (2) The use of symbols for the interpretation of information and the solution of problems; and
- (3) Performance on an individually administered test of intelligence that falls within a range of two to three standard deviations below the mean.

ii. "Moderate Intellectual Disability" means a level of cognitive development and adaptive behavior that is moderately below age expectations with respect to the following:

- (1) The ability to use symbols in the solution of problems of low complexity;
- (2) The ability to function socially without direct and close supervision in home, school and community settings; and
- (3) Performance on an individually administered test of intelligence that falls three standard deviations or more below the mean.

iii. "Severe Intellectual Disability" means a level of functioning severely below age expectations whereby in a consistent basis the student is incapable of giving evidence of understanding and responding in a positive manner to simple directions expressed in the child's primary mode of communication and cannot in some manner express basic wants and needs.

4. "Communication Impaired" corresponds to "communication handicapped" and means a language disorder in the areas of morphology, syntax, semantics and/or pragmatics/discourse which adversely affects a student's educational performance and is not due primarily to an auditory impairment. The problem shall be demonstrated through functional assessment of language in other than a testing situation and performance below 1.5 standard deviations, or the 10th percentile on at least two standardized language tests, where such tests are appropriate, one of which shall be a comprehensive test of both receptive and expressive language. When the area of suspected disability is language, assessment by a certified speech-language specialist and assessment to establish the educational impact are required. The speech-language specialist shall be considered a child study team member.

i. When it is determined that the student meets the eligibility criteria according to the definition in (c) 4 above, but requires instruction by a speech-language specialist only, the student shall be classified as eligible for speech-language services.

ii. When the area of suspected disability is a disorder of articulation, voice or fluency, the student shall be evaluated according to N.J.A.C. 6A:14-3.4(g) and, if eligible, classified as eligible for speech-language services according to N.J.A.C. 6A:14-3.6(a).

5. "Emotionally Disturbed" means a condition exhibiting one or more of the following characteristics over a long period of time and to a marked degree that adversely affects a student's educational performance due to:

- i. An inability to learn that cannot be explained by intellectual, sensory or health factors;
- ii. An inability to build or maintain satisfactory interpersonal relationships with peers and teachers;
- iii. Inappropriate types of behaviors or feelings under normal circumstances;
- iv. A general pervasive mood of unhappiness or depression; or
- v. A tendency to develop physical symptoms or fears associated with personal or school problems.

6. "Multiply Disabled" corresponds to "multiply handicapped" and "multiple disabilities," and means the presence of two or more disabling conditions, the combination of which causes such severe educational needs that they cannot be accommodated in a program designed solely to address one of the impairments. Multiple disabilities include cognitively impaired-blindness, cognitively impaired-orthopedic impairment, etc. The existence of two disabling conditions alone shall not serve as a basis for a classification of multiply disabled. Eligibility for speech-language services as defined in this section shall not be one of the disabling conditions for classification based on the definition of "multiply disabled." Multiply disabled does not include deaf-blindness.

7. "Deaf/blindness" means concomitant hearing and visual impairments, the combination of which causes such severe communication and other developmental and educational problems that they cannot be accommodated in special education programs solely for students with deafness or students with blindness.

8. "Orthopedically Impaired" corresponds to "orthopedically handicapped" and means a disability characterized by a severe orthopedic impairment that adversely affects a student's educational performance. The term includes malformation, malfunction or loss of bones, muscle or tissue. A medical assessment documenting the orthopedic condition is required.

9. "Other Health Impaired" corresponds to "chronically ill" and means a disability characterized by having limited strength, vitality or alertness, including a heightened alertness with respect to the educational environment, due to chronic or acute health problems, such as attention deficit disorder or attention deficit hyperactivity disorder, a heart condition, tuberculosis, rheumatic fever, nephritis, asthma, sickle cell anemia, hemophilia, epilepsy, lead poisoning, leukemia, diabetes or any other medical condition, such as Tourette

Syndrome, that adversely affects a student's educational performance. A medical assessment documenting the health problem is required.

10. "Preschool Child with a Disability" corresponds to preschool handicapped and means a child between the ages of three and five who either:

i. Is experiencing developmental delay, as measured by appropriate diagnostic instruments and procedures, in one or more of the areas in (c) 10 i (1) through (5) below, and requires special education and related services. When utilizing a standardized assessment or criterion-referenced measure to determine eligibility, a developmental delay shall mean a 33 percent delay in one developmental area, or a 25 percent delay in two or more developmental areas.

- (1) Physical, including gross motor, fine motor and sensory (vision and hearing);
- (2) Intellectual;
- (3) Communication;
- (4) Social and emotional; and
- (5) Adaptive; or

ii. Has an identified disabling condition, including vision or hearing, that adversely affects learning or development and who requires special education and related services.

11. "Social Maladjustment" means a consistent inability to conform to the standards for behavior established by the school. Such behavior is seriously disruptive to the education of the student or other students and is not due to emotional disturbance as defined in (c) 5 above.

12. "Specific Learning Disability" corresponds to "perceptually impaired" and means a disorder in one or more of the basic psychological processes involved in understanding or using language, spoken or written, that may manifest itself in an imperfect ability to listen, think, speak, read, write, spell, or to do mathematical calculations, including conditions such as perceptual disabilities, brain injury, minimal brain dysfunction, dyslexia, and developmental aphasia.

i. A specific learning disability can be determined when a severe discrepancy is found between the student's current achievement and intellectual ability in one or more of the following areas:

- (1) Basic reading skills;
- (2) Reading comprehension;
- (3) Oral expression;
- (4) Listening comprehension;
- (5) Mathematical calculation;
- (6) Mathematical problem solving;
- (7) Written expression; and
- (8) Reading fluency.

ii. A specific learning disability may also be determined by utilizing a response to scientifically based interventions methodology as described in N.J.A.C. 6A:14-3.4(h)6.

iii. The term severe discrepancy does not apply to students who have learning problems that are primarily the result of visual, hearing, or motor disabilities, general cognitive deficits, emotional disturbance or environmental, cultural or economic disadvantage.

- iv. The district shall, if it utilizes the severe discrepancy methodology, adopt procedures that utilize a statistical formula and criteria for determining severe discrepancy. Evaluation shall include assessment of current academic achievement and intellectual ability.

13. "Traumatic Brain Injury" corresponds to "neurologically impaired" and means an acquired injury to the brain caused by an external physical force or insult to the brain, resulting in total or partial functional disability or psychosocial impairment, or both. The term applies to open or closed head injuries resulting in impairments in one or more areas, such as cognition; language; memory; attention; reasoning; abstract thinking; judgment; problem-solving; sensory, perceptual and motor abilities; psychosocial behavior; physical functions; information processing; and speech.

14. "Visually Impaired" corresponds to "visually handicapped" and means an impairment in vision that, even with correction, adversely affects a student's educational performance. The term includes both partial sight and blindness. An assessment by a specialist qualified to determine visual disability is required. Students with visual impairments shall be reported to the Commission for the Blind and Visually Impaired.

<p>Middle to High school requires considerable planning over an extensive period of time (The Autism Network, 2016). The purpose for the field trip is to familiarize the 8th autistic students from Union Avenue Middle School with the Autism Program at Irvington High School. This field trip will allow the students ample time to get to know; the layout of their new school, meet their future teachers, and become familiar with new routines. In addition, this field trip allows the teachers and other staff from Irvington High School an opportunity to meet the new students in order to plan appropriately for the following year.</p>
